

# Global Marketplace Impact

## A customized faith-at-work event for churches, students, and businesses

God's global mission from Genesis 1 to Matthew 28 is to spread His glory through a worldwide flourishing humanity who reflect Him in all of life and work. He has gifted all of His people with unique skills, passions, and circumstances for just such a purpose. All professions, one mission.

### What is GMI?

Global Marketplace Impact (GMI) is a customizable event centered around a biblical theology of work. It connects the dots between our everyday vocations and God's global purposes to help participants see how their skills and professions advance God's kingdom.

### What are the session topics?

Each GMI is customized to your audience. Topics may include:

- whole-life discipleship
- Business as Mission (BAM)
- the case for all professions to accomplish Jesus' global mandate
- examples of real-life workplace disciple-makers

### How is GMI structured?

Sessions range from 20-60 minutes, interspersed with discussion and Q&A. You can customize the topics and length to suit your needs.

You have changed the way I look at God's call in my life in how I spread the gospel.

— C, business student
